

Data flow

PUPIL DATA 
ASSESSMENT DATA 

Our Partners

We work closely with our partners so that together we can help you to easily and seamlessly interpret your data. The services we offer are designed to complement your use of PiRA, PUMA, GAPS and NTS Assessments in relation to MARK, our free online assessment and reporting tool trusted by over 6,000 schools.

Automatically sync the pupil, teacher and school data in your Management Information System with MARK.

We work with the following partners to make this possible:

Wonde

Wonde acts as a data aggregator that helps schools to synchronise and securely control their MIS data with third party applications, like MARK.

Arbor

Cloud-based MIS for Primary Schools, Secondary Schools, MATs and LAs. If you use Arbor's MIS, there's no need to use one of our data aggregators (listed below).

Assembly

Data aggregator that makes it possible to sync with the following MIS: SIMS, Arbor, Advanced Learning, Scholar Pack, BromCom, RM Integrus.

Xporter

Data aggregator that enables synchronisation with numerous MIS through Groupcall Xporter.

We work with these partners so that you can view your test data holistically.

In addition to syncing your pupil data with MARK, you can choose to share summary test data with our partners, enabling you to view your PiRA, PUMA, GAPS and NTS Assessments results in relation to other data within our partners' products. This helps you to form a holistic view when making decisions.

FFT Aspire Pupil Tracking

Test data for PiRA, PUMA, GAPS and NTS Assessments is presented at pupil, class and school level in Aspire Pupil Tracking. Test scores are converted to DfE scaled scores allowing comparison with other assessments, targets and FFT estimates.

Arbor

Test data for PiRA, PUMA, GAPS and NTS Assessments appears at pupil level and school level in the MIS. It is also presented in aggregated MAT dashboards in Arbor analytics.

Assembly Analytics

The data for PiRA and PUMA and NTS Assessments is presented in aggregated dashboards for MATs within Assembly Analytics. You can also see how standardised scores convert to National Test scaled scores.

Xporter – COMING SOON

Test data for PiRA, PUMA, GAPS and NTS Assessments will be available to share back into aggregated school and MAT analytics dashboards.
