Advancing geography
and geographical learning

Philip's World Atlases are published in association with The Royal Geographical Society (with The Institute of British Geographers).

The Society was founded in 1830 and given a Royal Charter in 1859 for 'the advancement of geographical science'. Today it is a leading world centre for geographical learning – supporting education, teaching, research and expeditions, and promoting public understanding of the subject.

Further information about the Society and how to join may be found on its website at: www.rgs.org
