b $4 \times 5 \times 0 =$

c $1 \times 1 \times 5 \times 5 =$

50 Subtract 8×4 from 7×6

51 Find 3×4 and multiply the answer by 6

52 Fill in the missing digits in the first grid.

Then complete the second grid in the same way, adding in appropriate multiplication calculations to the top two arrows.

53 This is a magic square. Arrange the remaining tiles into the grid so that the three answers in each row, column and diagonal add up to 15.
