

Revision tests: 2, 5 and 10

Record the time you take and the score you achieve for each test. Your target time for each test is 5 minutes. Use a pencil so that you can rub out your answers and test yourself again.

Multiplication table check (preparation)		
Target time: 5 minutes		
1	$3 \times 2 =$	
2	$7 \times 10 =$	
3	$6 \times 10 =$	
4	$8 \times 2 =$	
5	$5 \times 5 =$

Revision problems: 2, 5 and 10

- 1 How many twos are equal to four fives?
- 2 What is the product of 6 and 10?
- 3 Divide 40 by 5 and then divide the answer by 2. What number do you get?
- 4 How many groups of 5 are there in 55?
- 5 What is the total of six 5p coins, three 2p coins and four 10p coins?
- 6 What is one-tenth of 120 added to one half of 24?
- 7 What is 3 groups of 10 plus 4 groups of 2?
- 8 How much does it cost to buy eight 5p sweets and two 10p sweets?
- 9 Work out $\frac{1}{2}$ of 18 then multiply the answer by 5. What is the answer?
- 10 What is the difference between $40 \div 5$ and $5 \div 1$?
- 11 What is the sixth multiple of 2 added to the ninth multiple of 1?
- 12 Is it true that every multiple of 2 is also a multiple of 1?
- 13 What is the answer if you add the eighth multiple of 5 to the fifth multiple of 10?
- 14 Billy and Milly have the same amount of money. Billy has twelve £5 notes and five £2 coins. Milly only has £10 notes; how many £10 notes does she have?
- 15 A set of balance scales has eight 10 g weights in one pan. How many 5 g weights need to be put in the other pan for the scale to be balanced?
- 16 When 30 is divided by 5 you get the same answer as a number divided by 2. What is that number?
- 17 Lia's father is 5 times older than she is. Her grandma is 10 times older than Lia. If Lia's grandma is 70, how old is Lia's father?
- 18 Sam has some 2p, 5p and 10p coins. He has a total of 97p. If he has six 2p coins and three 5p coins, how many 10p coins has he got?
- 19 I'm thinking of a secret number. I multiply it by 10. I also multiply it by 5. When I add the two answers I get 165. What is my secret number?
- 20 My answer is 5. What is the number I began with if I first divided that number by 5 and then multiplied that answer by 1?
