

Fluency with Fractions

Table of Contents

Year 1	
Unit	Topic
	Introduction
1	Equal sharing all around us
2	Equal sharing between two
3	Finding half of a shape
4	Finding half linked to time
5	Finding half of a group of objects
6	Recognising halves in measurement
7	Recognising less or more than a half
8	Problems about combining halves
9	Equal sharing between four
10	Finding quarter of a shape
11	Relating quarters to halves
12	Finding quarter of a group of objects
13	Recognising quarters in measurement
14	Finding and combining quarters of objects
15	Problems about fractions
Year 2	
Unit	Topic
	Introduction
1	Counting and combining halves
2	Finding out more about equal sharing between four
3	Finding different quarters of a shape
4	Fractions of a turn and equivalence
5	Linking quarters to time
6	Finding different quarters of a group of objects
7	Using fractions to compare measurements
8	Combining halves and quarters in measurement
9	Counting in fraction steps of $\frac{1}{2}$ and $\frac{1}{4}$ beyond 1
10	Equal sharing between three
11	Finding a third of a shape
12	Finding a third of a quantity (length)
13	Problems about finding thirds (measurement)
14	Finding fractions of quantities (measurement)
15	Recognising fractions of different amounts
Year 3	
Unit	Topic
	Introduction
1	Fractions as numbers (1)
2	Fractions as numbers (2)
3	Dividing by 10 to find tenths of an object or quantity
4	Finding tenths by dividing one-digit numbers by 10
5	Counting in tenths, including beyond 1
6	Using knowledge of tenths
7	Compare and order fractions (with the same denominator)

8	Compare and order unit fractions
9	Finding fractions of a set of objects
10	Find and recognise fractions of a set
11	Solving problems about fractions of amounts
12	Adding fractions (tenths)
13	Solving problems about adding fractions
14	Subtracting fractions (1)
15	Finding the difference
16	Subtracting fractions (2)
17	Equivalent fractions
18	More equivalent fractions
19	Fractions as operators and division (1)
20	Fractions as operators and division (2)
21	Solving problems about fractions (1)
22	Solving problems about fractions (2)

Year 4	
Unit	Topic
	Introduction
1	Fractions and the number line
2	Understanding and counting in hundredths
3	Understanding hundredths related to tenths
4	Dividing one-digit numbers by 10 and 100
5	Dividing two-digit numbers by 10 and 100
6	Decimal representations of tenths and hundredths
7	Equivalent fractions of unit fractions
8	Equivalent non unit fractions
9	Other decimal equivalents
10	Problems about fractions and decimals (1)
11	Rounding decimals
12	Comparing numbers with decimal places
13	Solving problems about measure with decimals to two decimal places
14	Solving problems about fractions and decimals
15	Finding unit fractions of quantities
16	Solving problems about unit fractions of quantities
17	Non-unit fractions of quantities
18	Adding fractions with the same denominator
19	Subtracting fractions with the same denominator
20	Solving problems about adding and subtracting fractions
21	Solving problems about fractions
22	Problems about fractions and decimals (2)
Year 5	
Unit	Topic
	Introduction
1	Equivalent fractions
2	Counting in fraction steps
3	Comparing and ordering fractions
4	Solving problems using equivalent fractions
5	Decimal numbers as fractions
6	Understanding and writing percentages in different ways
7	Recognising and using thousandths
8	Mixed numbers and improper fractions
9	Adding fractions
10	Subtracting fractions
11	Counting in decimal steps
12	Adding and subtracting decimals
13	Multiplying proper fractions and mixed numbers
14	Problems about multiplying fractions
15	Fractions of amounts and remainders
16	Rounding decimals
17	Comparing and ordering numbers with up to three decimal places
18	Solving problems about numbers with up to three decimal places
19	Linear sequences involving fractions and decimals
20	Solving problems about percentage, fraction and decimal equivalents
21	Solving problems using percentages, decimals and fractions
22	Solving problems about fractions, decimals and percentages

Year 6	
Unit	Topic
	Introduction
1	Using common factors and multiples to work with fractions
2	Comparing and ordering fractions
3	Fractions, decimals and division
4	Problems about comparing and ordering fractions and decimals
5	Fraction, decimal and percentage equivalents
6	Adding and subtracting fractions
7	Problems about adding and subtracting fractions
8	Multiplying proper fractions
9	Solving problems about multiplying fractions
10	Dividing proper fractions by whole numbers
11	Problems about dividing fractions
12	Finding and recognising fractions of amounts
13	Solving problems using percentages
14	Using and understanding decimal place value
15	Multiplying decimal numbers by whole numbers
16	Calculating with decimals
17	Solving problems that require rounding of decimals
18	Understanding ratio
19	Solving problems about the relative sizes of two quantities
20	Ratio, proportion and shape
21	Solving problems about ratio
22	Describing comparisons using ratio and proportion
